# 1. Qualitative Information concerning Consolidated Financial Results for FY2017 First Quarter

## (1) Consolidated Financial Results

### Qualitative Information on Consolidated Operating Results

In the current consolidated first quarter, Isuzu vehicle sales in Japan increased by 2,264 units or 15.9% to 16,531 units on firm demand over the same period last year.

Overseas, Isuzu vehicle sales fell 7,401 units or 6.6% year-on-year to 104,198 units due mainly to a sales drop in emerging and resource-rich economies.

As a result, total Isuzu unit sales in both domestic and overseas markets came to 120,729 units, a decrease of 5,137 units or 4.1% from the same period last year.

With regard to other products, sales amount of parts for overseas production fell by 13.6 billion yen or 55.5% year-on-year to 10.9 billion yen. Sales amount of engine components declined 2.5 billion yen or 10.6% to 21.6 billion yen. Sales amount from other dropped 2.0 billion yen or 2.4% to 84.5 billion yen.

Consequently, net sales amounted to 432.4 billion yen, a decrease of 40.5 billion yen or 8.6% from the same period last year. This comprises 167.0 billion yen posted for Japan, up 14.5% year-on-year, and 265.4 billion yen for the rest of the world, a decrease of 18.9% compared with the same period last year.

In spite of the increased vehicle sales in Japan, the decreased sales in overseas markets and the impact of the yen's appreciation against other currencies adversely impacted the Company's profitability. The Company posted operating income of 36.8 billion yen, a decrease of 25.3% year-on-year, ordinary income of 36.7 billion yen, down 32.7% year-on-year, and net income attributable to the parent company's shareholders of 23.0 billion yen, a decline of 34.2% from the same period last year.

## (2) Consolidated Financial Position

Total assets as of the end of the current consolidated first quarter declined 34.8 billion yen to 1,774.4 billion yen from March 31 2016. This is primarily attributable to decreases in notes and accounts receivable-trade of 50.0 billion yen and investment securities of 10.8 billion yen, which cancelled out an increase in inventory assets of 24.0 billion yen.

Net assets decreased 22.0 billion yen to 875.6 billion yen from March 31, 2016.

This primarily reflects declines in retained earnings of 12.6 billion yen as a result of the dividend payment and foreign exchange translation adjustment of 27.7 billion yen, which are partially offset by 23.0 billion yen posted as net income attributable to the parent company's shareholders for the reporting quarter.

The capital adequacy ratio came to 41.2% compared with 41.5% as of March 31, 2016.

Interest-bearing liabilities grew 5.2 billion yen to 264.0 billion yen from March 31, 2016.

## (3) Future Estimates such as Consolidated Financial Forecast

The Company has not revised its consolidated financial forecast for the current fiscal year, which was announced on May 11, 2016.

\*This forecast is considered reasonable by the Company in light of information available today. Actual financial results may differ considerably from this forecast as it is subject to risk factors and uncertainties: world economic and market conditions and foreign exchange rate, etc. The forecast above, therefore, shall not be the sole basis for making any investment decision.

## **2. Matters Concerning Summary Information**

### **(1) Changes in significant subsidiaries during this period:**

None

### **(2) Adoption of specific accounting methods for presenting quarterly consolidated financial statements:**

Income taxes were calculated by multiplying consolidated quarterly income before income taxes and non-controlling interests by a rational estimate of the effective tax rate on consolidated income before income taxes and non-controlling interests for the fiscal year including the quarterly period after adjustments for the application of tax-effect accounting.

### **(3) Changes in accounting policies, accounting estimates and retrospective restatement:**

Changes in accounting policies

(Application of the implementation guidance on recoverability of deferred tax assets)

“Implementation guidance on recoverability of deferred tax assets” (ASBJ Guidance No.26, March 28, 2016, henceforth referred to as “Implementation guidance on recoverability”), has been applied from the beginning of this first fiscal quarter and the accounting treatment for recoverability of deferred tax assets was partially reviewed.

As for the application of Implementation guidance on recoverability, the company follows the transitional treatment stipulated at Implementation guidance on recoverability Article 49, Paragraph 4, and the difference of the amount of deferred tax assets and liabilities calculated if “Implementation guidance on recoverability” No.49, Paragraph 3, Item 1 to 3 are applied at the beginning of this first fiscal year, and that of deferred tax assets and liabilities at the end of the previous fiscal year was summed up to the retained earnings at the beginning of this first fiscal year.

As a result, the impact of above on deferred tax assets (Investment and other assets) and retained earnings is immaterial.

(Application of practical solution on accounting for changes in depreciation method related to the 2016 Tax Law changes)

Following the amendment of Japanese corporate tax law, the company adopted “practical solution on accounting for changes in depreciation method related to the 2016 Tax Law changes” (ASBJ Practical Task Force No.32, June 17, 2016) for this first quarter, and the way to depreciate buildings and structures was changed from declining-balance method to straight-line method. The impact of this change to financial statement for this first quarter is immaterial.
