

Impact on Isuzu and Isuzu Group Company by the Tohoku Kanto Earthquake

We would like to extend our heartfelt condolences to those persons and their families who have been affected by the Tohoku Kanto Earthquake. We pray for the soonest recovery from the damages.

We will put efforts for spare parts supply and service support operations for various vehicles and power units (engines for heavy equipment, generators, etc.) which are being used in relief operations in the affected regions, including disaster support trucks (such as vehicles of Japan Self-Defense Force and Fire Fighting Department, etc.), trucks transporting relief material, in order to enable smooth relief operations. Also, we will respond to any requests from the government and local authorities at the earliest possible timing.

At this time, we would like to advise impacts of the Tohoku Kanto Earthquake to Isuzu group as follows.

1. Isuzu plants/facilities

Fujisawa plant (Fujisawa-city, Kanagawa Prefecture), Tochigi plant (Tochigi-city, Tochigi Prefecture) had a little damage to equipment, and the plants will be ready to resume production at early stage.

2. Affiliate companies for parts production

TDF Corporation (Shibata-gun, Miyagi Prefecture), I Metal Technology Co., Ltd. (Tuchiura-city, Ibaraki Prefecture), both company's production plants are located in disaster area and had damages to their buildings and equipment. However it was identified that these plants were able to repair those damaged facilities and equipment.

Jidosha Buhin Kogyo Co., Ltd. (Ebina-city, Kanagawa Prefecture) had a little damage to equipment; therefore their plant will be able to resume production at early stage.

3. Dealerships

Isuzu dealerships that are located in Iwate Prefecture, Miyagi Prefecture, Fukushima Prefecture have some damages to their buildings and equipment, and they are under recovery process. Their service shops currently operational are as follows.

4. Other

Recovery of parts supply for production will take some more time, because many of the suppliers are located in affected area and had damages. We will support those suppliers as much as possible.

Concerning resume of production, we would like to make decision based on above mentioned situation, as well as recovery situation of social infrastructure such as supply of electricity, transportation systems.
