

### Tochigi Plant Employee Wins Energy Conservation Center, Japan (ECCJ) Chairman's Award

At the FY 2017 Kanto District Energy Month Awards, held by the Kanto Bureau of Economy, Trade and Industry, the Energy Conservation Center Japan (ECCJ) and the Kanto District Electric Use Rationalization Committee, in recognition of many years of contribution to energy conservation activities, Michihiro Aiko, Maintenance Section, PT Manufacturing Department No.1 at Tochigi Plant was awarded the ECCJ's Chairman's Award, for Merit in Promoting Energy Conservation.

This award was made to the person responsible for energy conservation selected from among businesses subject to the Act on Rationalizing Energy Use, and upon receiving this award, Mr. Aiko renewed his commitment to energy conservation, saying, "Energy conservation is an activity without end, but I intend to continue to engage in energy conservation initiatives in the future and to raise awareness."

Mr. Aiko is pictured on the bottom row, far right.
